JPI CLOUD PACS

Chiropractic
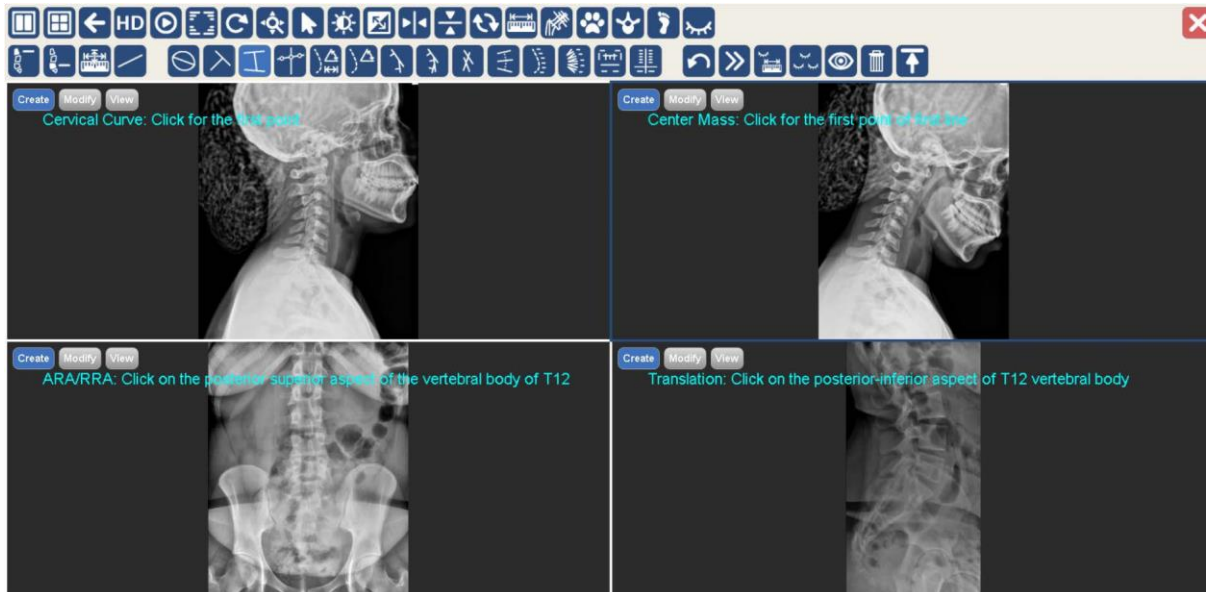

JPI Cloud PACS is a HIPAA-compliant backup and viewing solution for doctors like you. Our easy-to-use Cloud solution provides you with the freedom to view your images nearly anywhere on Edge, Safari, and Chrome browsers on your laptop, tablet, or phone with security and ease.

While other providers will try to nickel and dime you every chance they get, JPI Cloud PACS provides the added value of unlimited users and unlimited storage for CR, digital X-ray, and ultrasound.
